Hello!

It should come as no surprise to hear that my home club is struggling currently due to the recent resignation of our president, past president and another member all within the last two weeks. Due to Susan being the current Lt. Governor and our president elect being a brand new member, there was an immediate need to fill the president position and no one was stepping up. After much consideration, I have decided that my time, skills, and energy devoted to service would best be utilized assisting my club to get back on track. Tonight, I was voted in as the current president and I am committed to getting our club back to where it needs to be. With that being said, I am resigning from my position as the Key Leader Chairperson for the Capital District effective immediately. I do not feel as if I was suited for the position to begin with and clearly have no idea what I am doing. In addition, I have a real concern with being in charge of something I cannot even attend and cannot give 100% of my focus to being a success. I will let the 4-H facility know that the weekend I had originally reserved is not going to work and that when you guys have secured a more qualified person for this role they can reach back out to reschedule. I will be glad to share the minimal info I have with whoever takes over.

I appreciate having been given the opportunity and apologize for not being able to fulfill my duties.

Sincerely,
Schuyler Fury
