Jeff,

Sorry I missed the deadline. I was in Rockbridge most of the week and this slipped my mind. We had the grandchildren Monday and I was busy with them when I saw your message.

For Eric, et al., the report would be that we had a club opening in the Rockbridge area on November 14-16. We got enough members to open but not enough showed up at the informational meeting to organize. We had two unexpected problems that evening: there was a local dispute over leadership at the YMCA where we held the meeting and schools were unexpectedly closed because of unhealthy air from nearby forest fires. We are working on setting up an organizational meeting when we can get a majority of the new members to attend.

The District had an unexpectedly large number of drops and club closings in September, including two clubs with a total of 57 members, leading to a net lost of 54 members for the year. We were very disappointed, particularly after opening 7 new clubs.

I am refocusing the efforts of my Regional and Divisional Coordinators to work hard with our clubs and to look for early clues of struggles. I still have a few spots to fill on the team.

John
