**KIDS NEED KIWANIS.
KIWANIS NEEDS YOU.**

Making a difference in the lives of children. One child and one community at a time.

Below are brief outlines on 5 of our club projects. Please visit our website to discover all our club's accomplishments!

AMTRYKE THERAPEUTIC TRICYCLE:

Since 2010, our club has presented 89 Amtrykes to children with disabilities affecting their motor skills and strength. Amtrykes are all about abilities, focusing on what children can do, not what they can't do.

A BENCH FOR CAPS: This club project is environmentally conscious, repurposing non-recyclable plastic caps and lids into benches and tables. Since its inception in 2019, 28,000 pounds of non-recyclable plastic has been collected and kept out of landfills.

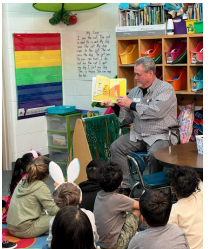

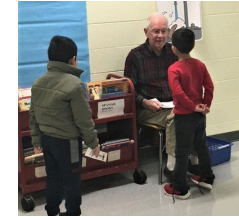

WEEKEND FOOD 4 KIDS: Members pack bags of nutritious snacks at a local elementary school twice a month. The bags are distributed to children who would otherwise have little to eat over the weekend.

ROBOTICS IN THE CLASSROOM: Our club presented the idea to develop STEM skills using Robotics to the Loudon and Lenoir City School Districts in 2017. We continue our collaboration through funding and volunteerism.

READING PROGRAMS: During the school year, our members engage in the Lending Library and Pre-Kindergarten Reading initiatives at Lenoir City Elementary School. Helping to foster an environment that lays a foundation for lifelong learning and literacy.
