## **HOMETOWN HEROES BANNER PROGRAM**

Creating and installing banners to be displayed on city light posts for the month of November is a tribute to our brave residents who have served or continue to serve our country. This past November, there were 57 banners displayed ... maybe that number will continue to grow.

The program includes designing and printing a banner for each honoree and displaying them during the month of

November. The banners feature service member's name, rank, photograph and branch of service.

To qualify, honorees must meet both (1) service and (2) residency/affiliation requirements:

### **1. Military Service**

- Must currently serve in the US Armed Forces, **OR**
- Must be a veteran who previously served, **OR**
- Must be a deceased veteran.

### **2. Residency or Affiliation**

- Must be a current resident of the City of La Cañada Flintridge, **OR**
- Must be an immediate family member of a current City of La Cañada Flintridge resident (immediate family includes mother, father, guardian, spouse, son, daughter, grandson, granddaughter, son-in-law, or daughter-in-law), **OR**
- Must have lived in La Cañada Flintridge at some point prior to entering military service; **OR**
- Must have attended a school within the City of La Cañada Flintridge.

**Application Deadline:** Application for 2026 is expected to become available in September 2026. **Cost:** There is no fee for a banner from the applicant. The program costs are covered by the city & donations from Community Partners. <https://lcf.ca.gov/hometown-heroes-program/>

Every February, something special happens at Children's Hospital Los Angeles. Hallways brighten, smiles come easier. And kids facing some of the hardest days of their young lives are reminded that they are loved and cared for – not just by their families & care team at CHLA, but by people everywhere. Make a Valentine's Day memorable for a child in the hospital. Send your special valentine that they can color in today.

USC Verdugo Hills Hospital, 4<sup>th</sup> floor council rooms C & D (enter from hospital main entrance) 1812 Verdugo Blvd., Glendale.

Glaucoma, cataract, diabetic retinopathy, and macular degeneration are the leading causes of vision loss in the United States. In this talk, we will discuss how these diseases develop, how doctors detect them, and how modern treatments help preserve sight. We will conclude by highlighting research focused on early detection of glaucoma and understanding how early detection can prevent vision loss. Dr. Kyle Bolo is a board-certified ophthalmologist, specialized in treating glaucoma and cataracts. He is also a clinician-scientist and medical educator, who receives funding from the National Institutes of Health to study how glaucoma screening affects vision. He welcomes new patients and the USC Roski Eye Institution in Los Angeles and USC Ophthalmology in Glendale. To register, visit <https://www.keckmedicine.org/events/> or call 818-952-2228. They will have box lunches for takeaway at the end of the talk for in-person attendees. Reservations for takeaway box lunches are required at least 48 hours in advance. Doors open at 11:30 a.m., and the talk will begin promptly at noon.
