OREGON STATE CAPITOL

Our featured member today was **Don Ferguson**. Don was born in what he notes was the conservative town of Liberal Kansas. Don is a man who epitomizes a positive attitude. He talked about a history of national, regional and family disasters. Before he was born was the Great Depression, then came the natural disaster of the “Dust Bowl,” then the family disasters that included a tragic accident involving two sons with a gasoline barrel explosion.

Don joined the Army National Guard and then became an iron and steel worker and welder.

Our guest speaker today was **Jodi Jones**, a state of Oregon employee for the past 30 years. Her presentation was on the current CAMS Project going on at the Capitol. CAMS is Capitol Accessibility, Maintenance and Safety. This project is designed to increase accessibility including new ADA entrances and sidewalks, enhance maintenance, and improve safety at the Capitol.

Among the project items are two large underground mechanical vaults which will include new electrical service, a new emergency generator, a new underground fuel tank for the generator, and restoration of landscaping above vaults.

Also included are a remodel of Visitor Services and a new Welcome Center and Information Desk Kiosk.

ADA upgrades represents only about 20% of dollars involved.

This phase of the Capitol construction is not addressing work involving major seismic upgrades which will be done at a later date and with costs to be determined.

See page 2 for photos of some of the completed items.
