The Best Music Programs For The Summer

Our program on May 10th was presented by Michael Fraley, the Executive Director of the Youth Orchestra of Palm Beach County (YOPBC).

They have a Summer Music Camp which is completely unique because their camp gives kids MUSIC and MORE! They stand out because they teach ALL instruments AND because they accept beginning students on most instruments. Unlike most music camps, they provide a fun schedule of varied day camp activities in addition to music...activities such as organized sports, arts and crafts, private lessons, guest artist performances, as well as field trips to local attractions, and as you would expect, lots of music!

The YOPBC is a non-profit arts

organization that provides youth, ages six to 22, from all backgrounds, with programming that supports the notion that "Music Changes Lives." Benefiting in multiple ways from instruction, rehearsal, and the thrill of performing orchestral music as a unified whole, the student musicians who make up the YOPBC membership have through the YOPBC program the chance to gain self-esteem, improve academic performance, learn how to meet self-directed goals, build socialization skills, and serve the community through the arts.

In abiding by the principles of diversity, equity, and inclusion, YOPBC strives to make its program accessible to a diverse sampling of student musicians from all over Palm Beach and surrounding counties. No child is ever turned away because of an inability to pay.

For more information, go to www.yopbc.org.

A Child's Life Lifted Up By You

Our program on May 17th was presented by Christie Geltz, The Volunteer Recruiter for the Guardian Ad Litem for Children.

Thousands of abused, abandoned and neglected children become the subject of judicial proceedings each year in Florida. The Guardian Ad Litem are looking for volunteers to become part of the court process in order to represent and advocate for a child's best interest.

With a GAL volunteer, a child is half as likely to languish in the foster

care and child welfare system, and more likely to find a safe, permanent home.

Today, there are many children in the system that have no access to a GAL volunteer. Volunteers will be trained to collaborate with outside agencies, interview parents/caregivers, teachers, doctors, counselors, and present recommendations to the court and prepare reports which become part of a child's records. For more information, go to www.galpb.org.

Landlord's Fill Their Vacant Units

Our program on May 24th was presented by Jackie Lazarus, Sasha Lopez, and Alex Salomon representing the Housing Services of Palm Beach County Community Services Dept.

We heard about the Smart Landlord Campaign and the county's efforts to provide affordable housing. The S.M.A.R.T Landlord Campaign recruits landlords who can provide affordable units for extremely low income and homeless individuals and families. They need efficiency, studio and multiple bedroom units. The program's ultimate goal is to end homelessness by getting homeless individuals and families into housing. The only thing that will end homelessness is housing.

Joining the community of homeless service providers is also beneficial to landlords. Landlords can save on marketing costs. There's a waiting list of people who need housing immediately. Every tenant has a case manager who provides assistance to the client and serves as the landlord's immediate point of contact. Landlords receive timely rent payments with help from the organization placing the tenant. Reduce vacancies by always having a tenant.

Interested in signing up for the program? E-mail jalazaru@pbcgov.org or call 561-355-1183.

I hate it when I see an old person and then realize that we went to high school together.

Caridad Serves The Children & Families of Our Community

Our program on May 31st was presented by Lisa Kronhaus, the Chief Development Officer for Caridad Center.

Caridad Center offers comprehensive medical, dental, and vision care and is the largest clinic of its kind in Florida. Their services are free for patients and their families who do not have insurance. Over 28% of Palm Beach County residents do not have medical insurance.

Volunteer doctors, dentists, nurses, dentists, dental hygienists, as well as many others contributed over \$5.1 million in patient care services. The goal of Caridad is to help the working poor population stay healthy so they can be productive individuals in our community. Last year their dispensary assisted over 1,500 patients with free prescription medication valued at over \$2 million.

Caridad Center is also a leader and advocate of Community Health Worker (CHW) programs throughout Palm Beach County. Their CHW programs provide their patients a trusted frontline public health worker that will come to their homes and serve as a liaison for them and their families. Caridad's Social Services Department dramatically increased the total services they provided for those in need this past year. Their programs for families facing financial insecurities include: providing food assistance, clothing, children & baby supplies, youth education and enrichment support, personal care items, and emergency living assistance. They seek to eliminate the cycle of poverty for the families they serve in South Florida. For more information go to www.caridad.org

PUBLIC SERVICE ANNOUNCEMENT

A.I. ENHANCED SCAMS

by Alvaro Puig, Consumer Education Specialist, FTC

You get a call. There's a panicked voice on the line. It's your grandson. He says he's in deep trouble — he wrecked the car and landed in jail. But you can help by sending money. You take a deep breath and think. You've heard about grandparent scams. But darn, it sounds just like him. How could it be a scam? Voice cloning, that's how.

Artificial intelligence (AI) is no longer a far-fetched idea out of a sci-fi movie. We're living with it, here and now. A scammer could use AI to clone the voice of your loved one. All he needs is a short audio clip of your family member's voice — which he could get from content posted online — and a voice-cloning program. When the scammer calls you, he'll sound just like your loved one.

So how can you tell if a family member is in trouble or if it's a scammer using a cloned voice? Don't trust the voice. Call the person who supposedly contacted you and verify the story. Use a phone number you know is theirs. If you can't reach your loved one, try to get in touch with them through another family member or their friends.

Scammers ask you to pay or send money in ways that make it hard to get your money back. If the caller says to wire money, send cryptocurrency, or buy gift cards and give them the card numbers and PINs, those could be signs of a scam.

If you spot a scam, report it to the FTC at ReportFraud.ftc.gov.

Example of a Family Emergency Scam Call

Hi Grandpa, it's me.

Sebastian? Is that you?

Yes, it's me, Sebastian. Grandpa, I'm in trouble, and I need money for bail.

What happened?

Please don't tell Mom or Dad. I'll get in so much trouble.

Please help me!

HEALTHY LIVING TIP

Show Your Heart Some Love

Heart disease is the number one killer of men and women in the U.S. While age, genetics, and family history are risk factors related to heart disease, some lifestyle factors are associated with better heart health. But first, discuss any medical concerns with your healthcare provider before beginning any diet or fitness regimen. The following information is not a substitute for medical advice:

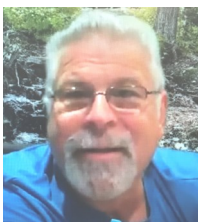

- **Manage your blood pressure:** Make sure to check your blood pressure regularly. Hypertension is often asymptomatic.
- **Maintain a healthy weight:** Being overweight or obese may increase disease risk.
- **Eat well and exercise:** These two activities are associated with a lower incidence of heart disease.
- **Drink less alcohol and don't smoke:** These habits are seen more frequently in heart disease patients.
- **Sleep well and reduce stress:** Lower cortisol levels may reduce your risk for heart disease.

While not all risk factors are controllable, some are. The list above is not comprehensive. Give your heart some love, and talk to your doctor about the best ways to care for it.

Tip adapted from MedlinePlus.gov⁸

Governor's Message

by Sharon Moody
Florida Kiwanis Governor

For over 15 years I have been involved with the Kiwanis International organization as a way to connect with and support our future leaders ... which includes every member of our Florida District. Whenever you find an organization where you can fulfill your passion and the organization's values align with what you believe is important such as service, leadership, and fellowship, then you know what time it is: It's time to join!

That's why I encourage you to be looking for new members with "service hearts" who will bring their talents, ideas and energies to your club. These new members will help your club realize even greater achievement. What capabilities does your club need to increase its service to kids and your community? Would it be someone who brings positive energy and a competitive spirit that will motivate others to accomplish more? Is it someone who knows local leaders and can connect your club to resources and potential community partnerships? Does your club need the skill of a social media whiz who can let the world know all the good things your club does? Your new member search should be intentional and focused if you want your club to grow in its ability to serve others.

Currently a district-wide membership drive is underway that will culminate on August 10th. At DCON, the club that has welcomed the highest number of new members will be recognized and rewarded in several special ways. Will it be your club? Remember, membership and all that it holds is the lifeblood of your club and our greater Kiwanis organization. You don't want to keep it a secret!
