## Medical Equipment For Those in Need

On August 7th, we heard from Owen O'Neil, founder of Clinics Can Help, a non-profit that provides medical equipment to those in need. Doesn't everyone know somebody that has a wheelchair in their closet, or a hospital bed in their garage or other durable medical equipment in a storage space? Answer: It shouldn't be. And why is it so hard to get the medical equipment you need, when you need it, but do not have the money or insurance to rent or obtain it. Answer: It doesn't have to be.

Surplus Durable Medical Equipment (DME) is in abundance in Palm

Beach County and most people who have DME they no longer need, want

to donate it to those who need it most. Until CCH was formed, there was no single agency able to connect the great surplus of medical equipment

Owen O'Neil

with the pediatric and adult patients in need of it in Palm Beach County, Florida. At Clinics Can Help, they believe every person has the right to quality medical care and access to quality medical equipment is part of that care. If you need a wheelchair, hospital bed, or other medical equipment and can't afford it, CCH will do their best to get one for you. For more information, or to donate, go to [www.clinicscanhelp.com](http://www.clinicscanhelp.com).

## St. Paul's Needs Help Packing 50,000 Meals

Brooks Wilson

Our speaker on August 21st was Brooks Wilson, representing St. Paul's Episcopal Church in Delray Beach. They have a "Food Packing" event on September 21st where they plan to pack 50,000 meals for over 2,000 children in Haiti. Working with the South Florida Haiti Project Coalition, the goal of the program is to pack 50,000 meals in three hours. The packed meals will be shipped via container to Haiti and distributed to primary and secondary school children who attend Episcopal schools in Bondeau and Leogane.

A similar food packing program will be sponsored by St Andrew's Miami on Oct 19. The 50,000 meals packed at this event will also be shipped to Haiti and feed the same population. In all 100,000 meals will be shipped to feed over 2,200 school children. This means each child will have a hot lunch five days per week for two months. Haiti is the poorest country in the Western Hemisphere. Eighty percent of its population is unemployed; seventy percent are undernourished. Early education and improved nutrition, their primary goals, will make the difference. For more information or to donate, go to <http://www.stpaulsdelray.org/Haitimission.php>

## All the Data You Need is at PBC Counts

Ale Sarmiento

At our August 28th meeting, Ale Sarmiento brought us up to speed on PBC Counts, a web portal sponsored by The Health Council of Southeast Florida (HCSEF). Palm Beach County Counts is where local leaders share data, information and inspiration on topics that matter to the Palm Beach County community. Policy makers, professionals, and commu-

nity members use the website for FREE to stay informed, set local priorities and goals and build custom dashboards and reports of local data. The website features a growing set of indicators, effective county-level programs and policies and other information conveniently organized by topic area. Topic centers include Health, Economy, Education, Environment, Government & Policies, Public Safety, Social Environment and Transportation. For credible, unbiased data, information and Palm Beach County Research, go to [www.pbccounts.org](http://www.pbccounts.org).

I was making love to this girl and she started crying. I said, "Are you going to hate yourself in the morning?" She said, "No, I hate myself now."

### **Eat less salt**

Even if you don't add salt to your food, you may still be eating too much. About three-quarters of the salt we eat is already in the food we buy, such as breakfast cereals, soups, breads and sauces. Eating too much salt can raise your blood pressure. People with high blood pressure are more likely to develop heart disease or have a stroke. Use food labels to help you cut down. More than 1.5g of salt per 100g means the food is high in salt. Adults and children over 11 should eat no more than 6g of salt a day. Younger children should have even less.

## Our Membership Is Our Strength

As our lives become busier and the years seemly pass faster we must again regroup. Our club will change President in October, however the focus will remain on strengthening our community and building the relationships within our extremely dynamic Kiwanis Club. Together as a collective team we have the talents, knowledge and will power to overcome the trying times of the economic squeeze. Our club possesses all the qualities necessary to reach farther and deeper to conquer the goals we have set for ourselves. Our membership is our strength so we should make it grow.

However, we must keep the common thread of friendship, comradery and the unpredictable humor which is the backbone of our club. **Let's call it Team Work!**

We are able to weave these threads to success in our endeavors such as the 40 years of the Delray Affair, the Garlic Festival, Glo-Ball and the upcoming 31st Annual Kiwanis Golf Tournament. These tedious but fun and exciting fund raisers are testimony to the strength and resolve we possess. The year ahead looks bright for the organizations which have asked for our support. From the Bugs Program, Thanksgiving Day Turkey deliveries, AVDA, various contributions to needy causes and to the wonderful college scholarships and our sponsored youth it shows your dedication and hard work truly makes a difference. Be Proud you earned it!

Our club needs good leaders to maintain this high quality of service. **Being a member is getting involved.** It's fun try it! We will survive and grow through team work...and have a lot of fun doing it!

**PUBLIC SERVICE ANNOUNCEMENT****Drunk Driving****Six Sobering Facts**

*Did you know that...?*

- Drunk driving is the most frequently committed crime in the United States.
- About 30 percent of all Americans will be involved in an alcohol-related car crash during their lifetime.
- More than 40 percent of all fatal auto accidents are alcohol-related.
- An alcohol-related crash kills one person every 31 minutes and injures one person every two minutes.
- Auto accidents are the greatest single cause of death for young people between the ages of six and 27. Almost half of these accidents involve alcohol.
- Your chance of being involved in a drunk-driving accident increases dramatically with every two beers you drink. Have a six pack and your chances of being in a drunk-driving accident are 44 percent.
- 1,700 college students die each year from alcohol-related accidents, including car crashes.
- Approximately 600,000 college students are injured under the influence of alcohol, many of which are automobile-related.

**How much does DUI cost?**

Beyond lost lives and painful injuries, alcohol-related crashes in the United States cost federal and local governments and taxpayers approximately \$51 billion each year. (Blincoe et al., 2002)

Of course, a single DUI won't cost you anywhere near that much. But getting caught driving under the influence can be an expensive. Costs vary state by state, but you could spend about \$4,000-\$5,000 on fines, impound fees, a DUI treatment program, insurance increases and other things—and that's before you hire a lawyer. Lawyers will cost another \$10,000 or so.

**Some Legal consequences of a first DUI arrest and conviction are:**

- Your license will be suspended for a period of time.
- You may have to participate in a treatment program.
- You may even have to spend a weekend in jail.

***Please Don't Drink & Drive.....*****Did You Know.....?****About Kiwanis One Day**

On the first Saturday of every April, Kiwanis clubs around the world join in a day of service. Kiwanis One Day was established in 2007 to unite the Kiwanis family and their communities in the spirit of service and camaraderie to make an immediate and measurable impact on communities around the world.

The special day of service seeks participation from the nearly 600,000 Kiwanis family members involved in Kiwanis, Aktion Club, Circle K, Key Club, Builder's Club and K-Kids in 80 countries around the world.

Kiwanis members identify local community service projects relevant to their area's local needs. Activities might include anything from playground builds and painting murals to beach cleanups, raking leaves, collecting food or providing maintenance. For more information about this day, please visit [www.kiwanisone.org/oneday](http://www.kiwanisone.org/oneday).

**A police officer stops a blonde for speeding and asks her very nicely if he could see her license. She replied in a huff, "I wish you guys could get your act together. Just yesterday you take away my license and then today you expect me to show it to you."**

## International President's Message

by Tom DeJulio, *President of Kiwanis International*

### On The Road to its Destiny

Make no mistake about it. Kiwanis is on the road to fulfilling its destiny as the world's leading service organization improving lives while providing opportunities for members to improve and transform their own lives. Let me describe three reasons why I believe Kiwanis itself is being transformed, and poised to become the go-to organization making the most positive influence in communities worldwide: 1) We have a distinctive brand; 2) we have the opportunity and the means to enhance our image worldwide; and 3) we will continue to provide meaningful service that impacts the welfare of children.

First, a word about our distinctive brand: a distinctive Kiwanis-family network like no other. Imagine, more than 600,000 members of our family and countless thousands more "members in waiting" all engaged in meaningful Kiwanis service to local and global communities. It is a distinctive brand that touts the fact that more than half of our family network is under the age of 25. Under the outlines of the multi-year strategic plan approved by your Kiwanis International Board this year, initiatives are being designed so that words in a written plan become action. The youth representing our brand will no longer be "sponsored youth" who come and go in and out of our Kiwanis lives. These are our partners in service, and must remain the key members of our family network. Kiwanis will empower them to change the way we structure our organization. Accordingly, they will be the ones to lead Kiwanis into its next century. In this distinctive family network, we have an extraordinary "ground team"—those members and friends of Kiwanis who labor in their communities, responding to needs—needs that are both controllable and out of our control. With more than a dozen uncontrollable events this past year, like violent storms and violent human acts, Kiwanians were there to respond with caring hands-on support and funding.

Another reason I have confidence in our future is the progress of our Global Campaign for Children and its current centerpiece, the project to eliminate maternal and neonatal tetanus. It is unprecedented for Kiwanis to have raised close to US\$40 million in cash and pledges in two years. But this campaign is more than a major fundraiser. It is our opportunity to enhance the image of Kiwanis worldwide to spur enrollment of new members. In a world where death makes headlines every day, it is a powerful statement to the world that Kiwanis is saving and protecting millions of lives.

Finally, our distinctive Kiwanis brand is being enhanced with priority emphasis on our motto: Serving the Children of the World. The 20-year-old Kiwanis acronym YCPO—Young Children: Priority One—is being reignited by more aggressively confronting one of the most critical issues facing our global society today: the failure to recognize that what happens in the life of a child in his or her first 2,000 days can make a difference for the rest of their lives. This past year, we successfully rebooted YCPO by defining it more clearly as Early Childhood Development and establishing new relationships with members of the business community and other "persons of influence" who understand just how important this issue is to world economies and the global society we live in. We come to the realization that there are only two basic ingredients that will result in growth: meaningful service and strong relationships. The projects Kiwanis does best are those involving the health, education and safety of children—service projects with high impact that are relevant to the dramatic needs and issues facing children in their earliest years. These are the service projects that will attract new members.

As we make our six Objects more relevant to today's needs, Kiwanians will speak out loudly for the welfare of every child and act more boldly for every child's health, safety, ability to read and, in some 28 impoverished nations, a child's right to live. We will launch our next 100 years not only as an organization with an incredible legacy of service, but as a "movement" for children, a movement led by the heroes in our Kiwanis-family network.
