Active Shooter Kentucky State Police- Gary Hall

Active shooting situations can take place anywhere at any time. Typically, these shooting occur very rapidly, and surviving one of these events is dependent on the immediate response by each person in the immediate area. Janet Doss, Licensed Clinical Social Worker

Whether we like it or not stress is a part of our everyday life and with all that has been happening in our world over the last two years, many have felt more stress than normal. Because stress is a part of our everyday life and we are not likely to get rid of it, it becomes important to learn how to manage stress effectively and develop healthy self-care strategies. In this session we will talk about what that looks like and how we implement that in our daily lives.

Janet Doss is a License Clinical Social Worker who practices in Lexington, KY. She has worked in the field of social work for 40 years and has worked in the area of mental health for 34 of those 40 years. Janet earned her LCSW in 1992 and has had a private practice since 1994.

Janet graduated from the University of Kentucky with a bachelor's degree in social work and in education; and then graduated from the University of Louisville Kent School of Social Work with a Master of Science in Social Work.

Janet lives in Lexington with her husband, David. They have two grown sons, two daughters-in-laws and three grandchildren who are the center of their lives these days.

Circle K DCON will be attending with us.
Watch for their badges and welcome them.
They will be sharing some of our rooms during the weekend.
