Monthly Club Reports (MCR) are completed online each month by either the Kiwanis club secretary or president. This report provides Kiwanis International, the district, and the club with important data that will improve programming and educate volunteer leaders on the work and impact of our clubs and members in their communities. The information is also used to create a monthly summary report (MSR) that is available to all club leaders from the Secretary Dashboard. This MCR user guide can be downloaded from [here](#).

Each month's MCR is due by the 10th of the following month. For example, the October report is due by November 10.

The MCR can be accessed from the Monthly Report Launch Page found in the Club Secretary Dashboard

Monthly Report Launch Page

1. Log in at <https://reporting.kiwanisone.org>
2. Click the Secretary Dashboard icon.

3. Click the monthly report tab near the top of the page.

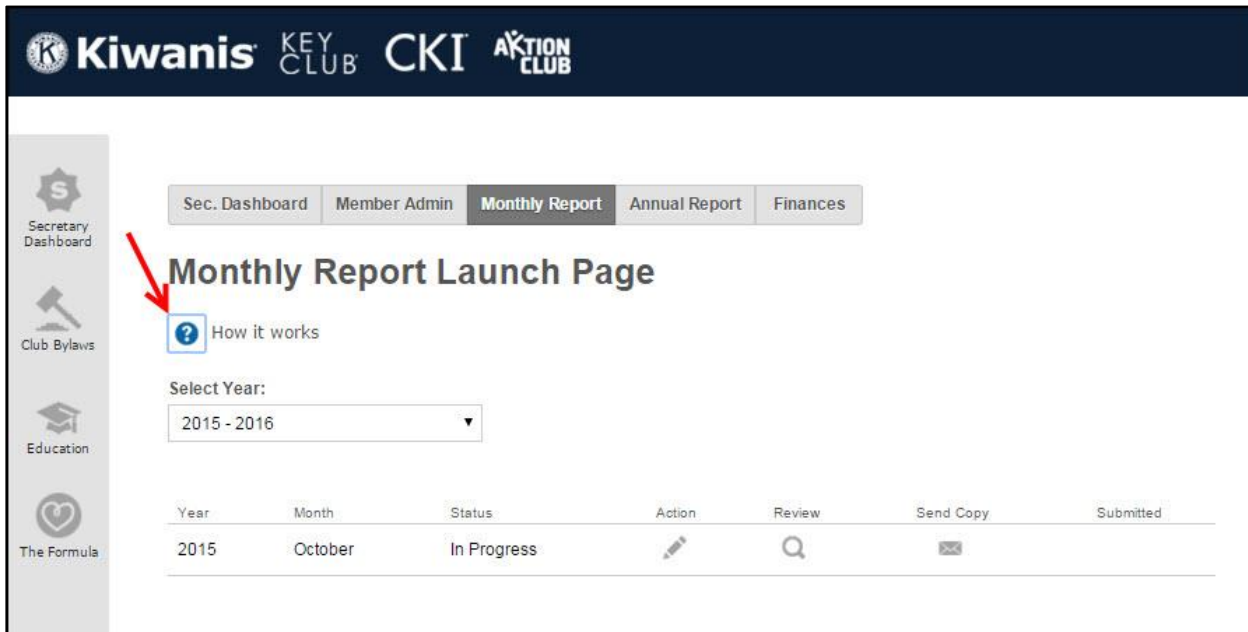

To learn more about the MCR, click the information bubble  to read how the MCR is organized.

NAVIGATING THE MONTHLY REPORT LAUNCH PAGE

The current Kiwanis year is shown by default. Each report will appear several months before it is due, along with its status (Not Started, In Progress, or Submitted). If the report has already been submitted, a green checkmark will appear at the end of the row.

How it works

We coach you step-by-step to help get your report done quickly and accurately. The monthly report follows the Kiwanis I-Plan, Kiwanis International's strategic plan.

You tell us about your club's achievements by answering simple questions, grouped together in the four areas of the strategic plan:

1. Inspiration and engagement
2. Meaningful service
3. Kiwanis image
4. Financial viability

If you complete all 12 months of monthly reporting using this online system, we will import your data into the annual report for you in November.

Reports can be edited and resaved/re-submitted at any time in the fiscal year.
Reports can be reviewed on-screen in progress or after submission.
Submitted reports can be shared with others via email as a PDF.

VIEWING PAST REPORTS

To see reports from previous years, click the Select Year box and click the desired year. You may not edit these reports, but you can click the magnifying glass icon to see the data.

STARTING A NEW REPORT

Click the blue **GO** button to begin a new report.

(Note: once a report has been started, the GO button will change to a pencil icon (to signify editing) the next time it's accessed. Reports can be saved and returned to later, and sections of the report can be completed in any order you wish.)

ENGAGEMENT

The Engagement tab is found in the second row of tabs at the top of the page. This row helps you navigate the various sections of the MCR. You may click in and out of these sections to complete them in any order.

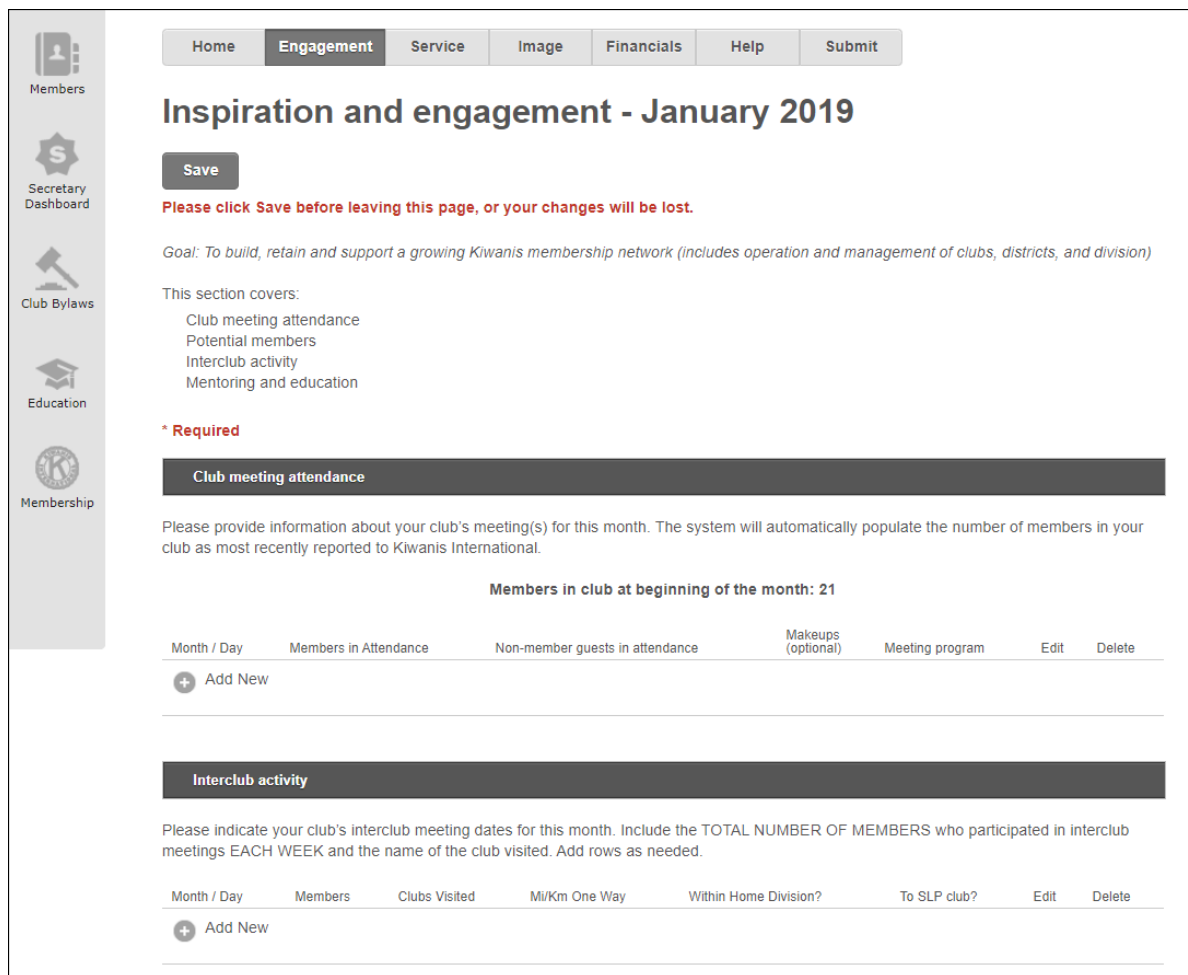

Under the Engagement tab, you will see sub-categories to complete.

- Club meeting attendance
- Interclub activity
- Annual questions

Sometimes, one-time questions known as “custom questions” can be added to a monthly report by either your district leaders or Kiwanis International. Please look through each section carefully to be sure you’ve answered all questions, including custom questions. Each page can be saved only when all required questions are answered. (Required questions are marked with an asterisk.)

*If your club subscribes to the full version of the Portalbuzz club management system, you will have the additional option of importing all your club and interclub meeting dates and attendance. Simply click the Import button, and all club meeting data for the month you are reporting will be imported. The Import button is only visible for full-version subscribers.

If you need to adjust your meeting attendance information, click the magnifying glass icon to jump directly to the Attendance Management page in the Portalbuzz system. You may also make changes directly in the MCR once your data has been imported.

ANNUAL QUESTIONS

New to the MCR in the Kiwanis year 2019-2020 is the “annual question” feature. These are questions about your club and Kiwanis programs that don’t usually change from month to month. This feature is designed to streamline the MCR process by asking certain questions one time at the beginning of each new club year. If your answer to an annual question hasn’t changed from October’s MCR, you don’t have to answer it each subsequent month — unless the answer changes. At the beginning of each club year, your answers to these annual questions will be reset to “unanswered” or blank. You will then need to answer them for the new club year.

Annual Questions

What is your club’s goal for new members added during the 2018-2019 club year?

- Service projects

Information about your club’s service projects should be reported in this section. Such information includes total service hours, participants, expenses, youth served, etc. You can also provide text details for your projects.

What constitutes a service project will vary from club to club — so use your best judgement! Service projects reported on the MCR should be those directed by the club board of directors and club membership. Service hours can include both planning time and the time needed to execute the project.

Clubs that subscribe to the full version of the Portalbuzz club management system (as described in the Engagement section above) will also be able to import service project information. Please follow the instructions found there.

MONTHLY REPORT TIPS

- The currency used for all your monthly reports will be automatically set for your club based on the currency in your part of the world.
- As previously discussed, reports may be edited, saved and submitted as many times as needed. If you submit a report with an error or simply need to make an adjustment, go back to the report and click the edit (pencil) icon. When you're ready, resubmit the report. Make sure to resubmit by November 10 of the following Kiwanis year. (Kiwanis years end on October 31.)
- The club annual report will be compiled automatically if you have filed each of your monthly reports for the Kiwanis year. This is a huge time-saver for Kiwanis club secretaries — it prevents you from having to keep 12 months of records, total all that data and then add it to the Annual Report. Some club secretaries prefer to enter information into the Annual Report in November for the entire previous club year, *but it must be completed by November 10*. You will have the chance to review and approve all the information before officially submitting your annual report on or prior to November 10.
