

At DCON every year, many of our clubs are represented by only one member—or sometimes none at all. Imagine the impact if every club sent at least two members to District Convention! That's my special project for this year. Together, let's discover what it takes to make DCON a priority, remove barriers to attendance, and encourage every club to be represented.

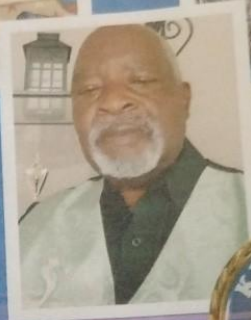

Our goal is simple: Two members from every club at DCON. It can be done—and together, we'll make it happen!
