

WELCOME TO

Service in a Digital World!

WELCOME TO SERVICE PROJECTS IN A DIGITAL WORLD!

This workshop will focus on how we can perform service as we continue to navigate a digital world due to the on-going pandemic. It will go into detail on how the Next Generation e-Club and the Legacy e-Club finds service projects that allow our members from all over the map to collaborate in service and fellowship all from the comfort of wherever they are.

USING VIRTUAL SERVICE TO YOUR ADVANTAGE

- Incorporating your SLP clubs to join you in service
- Collaborating with other clubs for interclub activities

CHOICE AND VOICE

Members are more motivated to participate in initiatives and projects that they had voice and choice in. Meaning, members want to have a say in the service they do! Given our often busy schedules and varying levels of comfort and accessible service projects in our areas, my club creates a choice board each month around a common theme! The choice board is divided into categories that allow for in-person and virtual service. The club can feel unified working towards a common goal (helping animals, fighting food insecurity, promoting mental health, etc...) while opting into service that fits their comfort level, skills, and availability.

MEMORABLE SERVICE PROJECTS

Just because you're serving virtually doesn't mean that you don't get to socialize! You just need to get creative with your partnerships! After speaking with Family Autism Network in NY, they allowed us to send pen pal letters to their clients, to virtually provide resume and job search training, and to virtually provide a creative writing class!

We also partnered with a college friend of mine to send her 2nd grade classroom recordings of us reading children's books!
