

Highlights of the Thursday, 22 January, 2026 Weekly Meeting

President Maureen, welcomed everyone including our speaker(s) for today, President Caroline Lee and Past President Richard Lee from the Kiwanis Club of North Dumfries, to the Kiwanis Club of Brantford's meeting for Thursday, 22-January, 2026.

President Maureen called Phil Hoekstra to present the 50/50 Draw with Bob Wade and Joan Griffin holding potential winning tickets, but neither were able to find the "Joker".

President Maureen called Pallo Sahota to come forward as this week's Funmaster.

Funmaster Pallo Sahota welcomed everyone and opened her Funmaster presentation referencing some humorous differences in responses, from women and men in various situations, from a document from the 60's.

Here is one example.

- When a **man** is out for lunch with other **men**, how is it decided how the bill is paid?
 - **Answer:** The Battle for the Bill: It is common for men to fight over the check to show dominance, generosity, or to establish a "you get it next time" pattern.
- When a **woman** is out for lunch with other **women**, how is it decided how the bill is paid?
 - **Answer:** The "Calculated" Split: Women are more likely to split the bill, often down to the exact item, to ensure fairness, especially if there is a wide range of budget options ordered (e.g., one person had only salads, another had wine and steak).

Pallo presented a few of these, all generating smiles and smirks.

Pallo moved on to the Birthdays and Anniversaries of joining the Club.

When Caroline and Richard moved to the US in 1999, they eventually joined the Kiwanis Club of North Abilene, Texas and were members until 2009 (Lost Charter)

Caroline and Richard moved back to Canada in 2016, to be with her dad and help with the family farm and maple syrup production.

Following is the more current way of transferring the Maple tree sap through plastic tubes to holding tanks and on to the reducing tanks to remove most of the water from the sap.

Carrying Legacy Forward

The spirit of "On to Alaska with Buchanan" lives on in every endeavor, every act of service, and every bottle of syrup shared with friends, family, and neighbors. It is a legacy to be celebrated, cherished, and passed on for generations to come.

Thank You!

Caroline and Richard gave us a great deal of information about how much sap had to be collected to produce 1 litre of syrup, how the colours are graded and what they mean, how the markets work for sale of the Syrup, Government legislation and many other items about the process.
