

2023-24 ... Club Contribution Form KIWANIS OF MICHIGAN FOUNDATION

Your Kiwanis of Michigan Foundation supports a number of programs and projects through the Child and Family Life Departments in three children's hospitals we serve in the Michigan District Kiwanis. Through your club's generous support, they fund educational and recreational programs at the Mott Children's Hospital in Ann Arbor, the Mary Free Bed Hospital in Grand Rapids, and the Children's Hospital of Michigan in Detroit. These are programs such as art therapy, pet therapy, and holiday parties that health insurance does not reimburse, yet as Kiwanians, we know they are good for youngsters.

These programs depend upon contributions from all Kiwanis Clubs here in the Michigan District. Including these programs into your annual budget makes a lot of sense. If you haven't already done so, please have your club include this funding in your 2023-24 and future budgets. To meet the needs of these valuable programs, the Kiwanis of Michigan Foundation requests a forty-five dollar (\$45⁰⁰) contribution per Kiwanis member. These funds can be taken from your service/project/charity account. **Contributions made as early as possible are most appreciated.**

As Kiwanians we must do everything we can to ensure that the children of Michigan have a bright future. Your Michigan Foundation is doing just that. As Kiwanians, we have committed ourselves to the Foundation with our Club support.

On behalf of the children of Michigan, thank-you for your continued generosity and life supporting contribution.

Please complete the following - - - - -

Club Name _____

Club President _____

Phone Number _____

Your Club's 2023-24 starting membership as certified by Kiwanis International
It is emailed to your club secretary in October 2023.

Starting Membership _____ x \$45⁰⁰ per member = _____

Please make your check payable to the **Kiwanis of Michigan Foundation**
