

Mural Mosaic Information – UNITY TREE

Each tile comes in a unique package with supplies. The painter can choose their own design, but they need to use the custom color palette to maintain the overall mural design. The package also includes a QR code for an online learning portal with painting tips and design suggestions.

This photo shows the up close detail of the tiles. The pre-painted tiles provide a framework outline with key features and the artist painted tiles complete the overall mosaic image.

THE VISION – Unity Tree
